The issued Business License shall be displayed in a prominent location within the business premises and be plainly visible to any customer, patron, client, or enforcement officer. Protective or durable enclosures for licenses are highly recommended as defaced, faded, deteriorated, or otherwise illegible licenses may be deemed void and require replacement prior to resuming business activities.

The application includes a section to explain the nature and purpose of the business as well as a questionnaire regarding health, environmental, and safety hazards the business may pose to the community. This questionnaire requires full-disclosure of the concerns listed above with exemptions for protected, classified and proprietary data as allowed by federal and state law. Failure to disclose hazards posed to the community or environment on the license application will be grounds for immediate rejection of the application in process and forfeiture of paid fees. In the same vein, disclosure of hazards shall not negatively affect the consideration for licensing. The City Council may impose additional controls as a condition of the license or require additional documentation regarding the mitigation plan required by other regulating entities.

Approved applicants may elect to pick up their issued licenses in person from the City Office or receive their license by mail to the address on the license application.
- F. When applications with additional hazards presented on the form or other concerns arise, the City Clerk may forward the application directly to the City Council prior to approval. Applicants will be notified of these requests in a timely fashion. Prompt submittal of responses to requests will prevent unnecessary delays on processing. The City Council may require approval from the Butte County Sheriff's Office as a condition of any license. Applicants will be notified if a visit to the Butte County Sheriff's Office is required for activities such as fingerprinting, photographing, and/or background checks.
